

气控阀

AIRBEST Series

Pneumatic Control Valve APS-8 Series

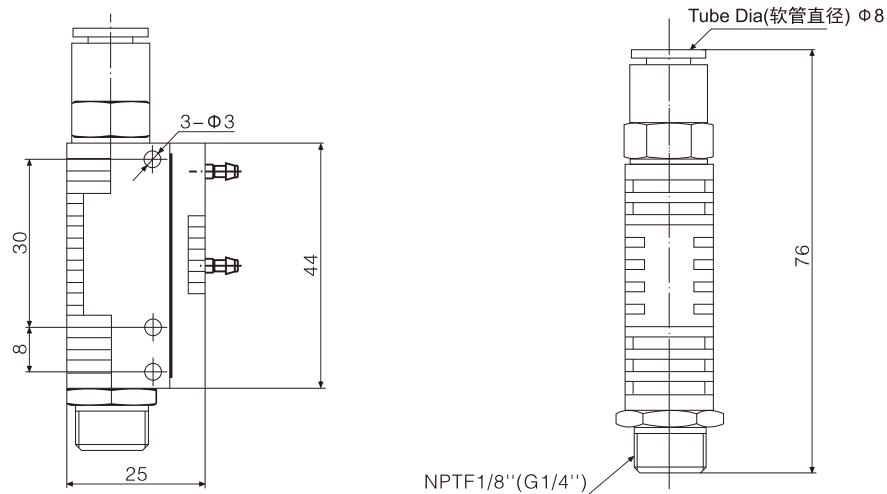

Specifications(技术规格)

| | | |
|---------------------------|-----|-------------------------|
| Air Supply Pressure(供气压力) | Bar | 1-8 |
| Working Temperature(工作温度) | °C | 0-60 |
| Control Mode(控制模式) | | Pneumatic Control(气动控制) |
| Action Mode(动作模式) | | Normally Open(常开) |
| Weight(重量) | g | 55 |

Dimensions(mm)(外形尺寸图(毫米))

4

Energy Saving System(节能系统)(ES)

The control valve (APS-8) works together with vacuum switch(AVS).The vacuum switch provides air control signal to open and close the control valve. It will save energy.

该气控阀可与真空开关配合使用。由真空开关提供气控信号，实现该控制阀的开起，关闭，达到节约能源之目的。
